Highlights

24 carat gold-plated connector

24 carat gold-plated connectors ensure the best signal quality for your components.

HDMI cable

This completely digital connection for HD components ensures they'll operate at peak performance.

Component video+ stereo audio

Transmits audio and video signals digitally to connect a high definition TV

Braided shielding

Copper braided reinforced aluminum shielding protects against signal loss and interference.

Plug and play

Plug and play offers easy installation of components without time-consuming installations.

Metal shell

The metal shell protects the internal connection of the cable. It ensures durability and the reliability of your connection.

Flexible PVC Jacket

Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Rubber strain relief

Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.

Fiber optic cable

Transmits audio signals digitally to optimize the sound performance of a high definition TV
